

# Big morning Tea Rubber Connection Dandenong.

14-5-22.

We had a great morning at the Rubber Connection today, started out a bit shaky for me, had misplaced the keys to the Cusso and when I went out to look in the garage it was raining, as well Big Brother Chris had arrived and time was getting tight to meet the gang at Westgate Services so we jumped in the Ranger instead.

Caught up with Mick B., Kevin S. and Rob B. At the bridge and eventually headed off for Dandenong.

The morning tea was successful if a bit smaller than other years, possibly due to the threatening weather. A good line up of Club Customlines and also a few extras (in the photo!) the lads decided that lunch was a loser so we all headed off home eventually. Mick splashed out big time on shiny bits and I grabbed a pair of new radiator hoses for the fabled Y'312.

I was vindicated in bringing the modern as it rained steadily after about 11:00am, with luck drier tomorrow for the Club meeting at Epping.

Oh yeah, found my keys after a quick search, they were in the pocket of my work trousers, left there when I cleaned up after Sunbury!

See you all tomorrow!

Dave Healey.
